**Abstract:** [10-point type, Arial, justify the paragraph (on both right and left)]. Your abstract should be an explicit summary of the paper that states the problem, the methods used, and the major results and conclusions.

**Tables and Figures:** Figures and illustrations should be incorporated into the abstract, and the size of a figure should be commensurate with the amount and value of the information conveyed by the figure. Text should not wrap around figures or tables; table captions (10-point Arial font) should be centered above tables, and figure captions (8-point Arial font) should be centered below figures (for example, “Fig. 1. Laser”).

Within the main text, references should be designated by a number in brackets [1], and they should be followed by a comma or period [2]. Two references cited at once should be included together [3,4], separated by a comma, while three or more consecutive references should be indicated by the bounding numbers and a dash [1–4].
